Nashville, TN*

**April 24–25, 2022**

Society of Dermatology Nurse Practitioners

# Society of Dermatology Nurse Practitioners

**The mission of the Society of Dermatology Nurse Practitioners (SDNP) is to promote excellence in advanced practice dermatology nursing.**

Our vision promotes the highest quality of care in advanced practice dermatology through education, SPECIALTY CERTIFICATION, evidence-based clinical practice, and interprofessional research

## **What is the Dermatology Nurse Practitioner Certification Exam?**

The Dermatology Nurse Practitioner Certification Examination is a nationally accredited examination administered by the Dermatology Nurse Practitioner Certification Board (DCNPB). The exam is designed to measure the nurse practitioner's ability to assess and diagnose acute and chronic dermatological conditions that occur across the life span. National certification is a recognized measure of competence in one's specialty area and serves as recognition of expertise in the specialty practice of dermatology.

## **Who will be taking the Certification Review Course?**

There are approximately 4500 nurse practitioners who practice in the specialty of dermatology nationally. Approximately 400 of those NPs have achieved national dermatology certification. The SDNP anticipates that this unique review course will be well-attended for the next several years as more dermatology NPs seek the status of national certification. We are the only peer-reviewed, live dermatology NP review course scheduled in 2022!

## **Why Should You Support the SDNP Certification Review Course?**

Dermatology NPs are essential members of the dermatology care team, and as prescribers, they recognize the support that our industry partners provide to support their ongoing educational needs. SDNP has not offered the opportunity to support this certification review course to all dermatology pharma companies. We are offering this opportunity to a select group of industry partners that have demonstrated their recognition of dermatology NPs as essential members of the health care team, and a commitment to their ongoing professional needs. We hope that you will take this unique opportunity to support this highly anticipated course. Supporters will be recognized by SDNP leadership at their annual symposium, throughout the Certification Review Course from the podium, via signage, in the syllabus, as well as on the SDNP website.

We hope you will partner with us to help support the professional needs of all dermatology NPs, specifically the acquisition of national, accredited certification. Your support means everything to us, and we couldn't do this without you!

Sincerely,

**Lakshi Aldredge, MSN, ANP-BC, DCNP, FAANP**  
President, Society of Dermatology NPs

**Melodie S. Young, MSN, A/GNP-C, DNP**  
President-Elect, Society of Dermatology NP
